

REBAR MUSHROOM CAP

Technical Product Data Sheet

DESCRIPTION

The BAP Rebar Mushroom Cap is a universal polymer composite protective cap used to cover the ends of protruding rebar to prevent impalement on jobsites.

FEATURES

- Fits #3 through #8 rebar, the most common sizes found on jobsites.
- Bright orange color for easy visibility.
- Made from durable polymer composite for many reuses.

Comments:

All recommendations, statements, and technical data contained herein are based on tests we believe to be reliable and correct; however, the accuracy and completeness of said tests are not guaranteed and are not provided as an express or implied warranty. The user shall rely on his or her information and tests to determine the suitability of the product for the intended use and the user assumes all risk and liability resulting from his or her use of the product. In the event that a product supplied by BAP proves not to meet the BAP published dimensional or other specifications of the product. A BAP representative will review such products and circumstances to determine whether a replacement is warranted. BAP and its manufacturer's sole responsibility shall be to replace. At BAP's sole discretion that product or portion of the product which BAP deems to be defective, within six months of the delivery of the product. BAP disclaims all other warranties or conditions, whether express or implied, including any implied warranties of merchantability or fitness for any particular purpose. In no event shall BAP, or its parent or affiliated companies be liable for delay caused by defects, for loss of use, or any indirect, incidental, special, or consequential damages, or for any charges or expenses of any nature whatsoever. In no event shall BAP's liability exceed the purchase price paid for the particular affected BAP products.
